EDUCATION

Ramaiah Institute of Technology

B.E. in Artificial Intelligence & Data Science (CGPA: 9.3)

Atomic Energy Central School, Yelwal

Class XII (PCMC) – 93%

Kendriya Vidyalaya BSF

Class X – 92.4%

Bangalore, India

2023 – 2027

Mysore, India

2021 – 2023

Gandhinagar, India

2020 – 2021

TECHNICAL SKILLS

Languages: C++, Python, JavaScript

Technologies: WebRTC, WebSockets, REST APIs

Frameworks: React, Next.js, Node.js, Flask, TensorFlow

Databases: MongoDB, MySQL

Tools: Git, AWS EC2, Linux, Vercel, Nginx, Render

PROJECTS

Real-Time Video Conferencing System | *WebRTC, Node.js, Socket.io*

- Engineered peer-to-peer video conferencing system with room-based architecture and signaling server
- Implemented ICE candidate exchange and configured STUN/TURN servers for NAT traversal
- **Designed call lifecycle (join/leave, accept/reject) with low-latency mediastreaming**

Multiplayer Chess System (Real-Time) | *WebSockets, Node.js, React*

- Developed real-time multiplayer chess platform with move synchronization using WebSockets
- Implemented game logic validation, matchmaking, and live game state management
- **Built scalable backend to handle concurrent players and low-latency updates**

Vision Transformer & Segmentation | *PyTorch, OpenCV*

- Implemented Vision Transformer (ViT) with multi-head self-attention on CIFAR-10
- Integrated GroundingDINO and SAM for prompt-based object segmentation

ACHIEVEMENTS

Winner – 22 Yards of Code (CodeRIT)

- Secured 1st place among 100+ participants in a 3-stage coding competition
- Solved CTF challenges involving debugging, logic puzzles, and security concepts
- Won head-to-head coding battles in knockout rounds

2nd Runner Up – CodeSprint (GDG NMIT)

- Built full-stack content platform with scraping, analytics, and media tools
- Ranked top 3 among 160+ teams for innovation and execution

Finalist – wHACKiest (BioTwin)

- Applied machine learning models to predict drug efficacy, reducing experimental dependency
- Analyzed biomedical datasets and engineered features to enhance model performance

CERTIFICATIONS

Solutions Architecture Job Simulation – Forage

- Completed practical tasks in designing simple, scalable hosting architecture
- Certificate: Verification Code: W4Y9sqNrTuDeD7xB74

Cyber Security Job Simulation – Deloitte (Forage)

- Completed practical tasks in cyber security fundamentals and threat analysis
- Certificate: Verification Code: 4Y9sqNrTuDeD7xB74

Technical Certifications – HackerRank

- Frontend Developer (React), SQL (Advanced), Software Engineer
- [Certificate Link](#)
