SUMMARY

Motivated Computer Science undergraduate with hands-on experience in full-stack web development using the MERN stack. Skilled in building scalable applications, designing RESTful APIs, and optimizing backend performance. Strong foundation in Data Structures and Algorithms with 300+ problems solved. Passionate about developing efficient, real-world solutions and continuously learning new technologies.

EDUCATION

M. S. Ramaiah Institute of Technology

Bangalore, India

Bachelor of Engineering in Computer Science

Oct 2023 – Oct 2026

- GPA: 7.69
- Relevant Coursework: Data Structures, Web Development, DBMS, Operating Systems, Software Engineering

PROJECTS

Full Stack Stock Trading Platform | *React, Node.js, Express, MongoDB*

- Developed a full-stack stock trading platform enabling users to buy, sell, and track investments in real-time
- Designed an interactive React dashboard for portfolio visualization and performance tracking
- Implemented MongoDB aggregation pipelines to analyze portfolio trends and generate insights
- Built secure RESTful APIs using Node.js and Express.js for transaction handling and authentication
- Optimized backend performance by improving database queries and reducing API response latency
- Followed MVC architecture for scalable and maintainable code structure

Job Searching Platform | *React, Node.js, Express, MongoDB Atlas*

- Built a full-stack job portal enabling users to search, filter, and apply for jobs efficiently
- Designed a responsive React-based UI for job browsing, posting, and application tracking
- Integrated MongoDB Atlas for scalable cloud database management
- Developed RESTful APIs using Express.js for efficient data handling and retrieval
- Implemented advanced filtering and search features to improve user experience
- Enhanced performance by optimizing API calls and reducing redundant database operations

TECHNICAL SKILLS

Languages: C, C++, JavaScript

Frameworks: React.js, Node.js, Express.js

Databases: MongoDB, SQL

Developer Tools: Git, GitHub, VS Code, Postman

Core Concepts: Data Structures & Algorithms, DBMS, Operating Systems

CERTIFICATIONS

DBMS Certificate – NPTEL

2025

Operating Systems Certificate – NPTEL

2025

ADDITIONAL INFORMATION

Solved 390+ Data Structures and Algorithms problems on platforms like LeetCode and GeeksforGeeks

Strong problem-solving skills in arrays, graphs, dynamic programming, and trees

Experience building scalable full-stack applications using the MERN stack

Familiar with REST APIs, authentication, and backend optimization
